Display loan for Partner+

We provide shelf and counter displays on loan. They remain NUI property as long as you sell NUI products. If you stop selling, the display goes back – otherwise it will be invoiced. The handover is recorded with a loan form.

The gross price is the same in every EU country; the net amount depends on the VAT rate of your country. All prices in EUR. Subject to change, errors excepted. Discount tiers are based on the net value of goods after the partner discount.
